Dear Parent / Carer

Sex and Relationships Education (SRE) — KS2

In line with our SRE policy, KS2 students will receive lessons about puberty – male and female. The sessions will take place during the second half of the summer term. It will give our students the chance to gather an understanding of these changes and ask questions in a safe environment.

This is an important part of their SRE curriculum and we consider this to be a valuable part of every child's education, because it provides them with good quality information which will enable them to make well informed life choices. If you would like to discuss this further, please contact me through the office or email jcr@sslp.uk

Yours sincerely,

Mrs J Cadwallader

Assistant Headteacher
